

Project: **Sewer and Storm water pumping station at "Dessau/Waldersee"**

Client: Dessauer Wasser und Abwasser GmbH  
Albrechtstraße 48  
06844 Dessau  
Germany

Project value: 1,500,000. €

Date: 2000

Project description:

The pumping station "Waldersee" at Dessau drains the areas "Solnitz, Kleutsch, Mildensee and Waldersee". One part of the structure is designed to pump the sewage discharges; the second part drains the storm water discharges from the connected area "Waldersee".

The installed capacities are:

|              |         |                             |
|--------------|---------|-----------------------------|
| Sewage:      | 80 l/s  | 2 pumps (each pump 40 l/s)  |
| Storm water: | 400 l/s | 2 pumps (each pump 200 l/s) |
